

# ASTCQ Inc. Championship Show Critique ~ 14/08/2011

## Judge: Mrs L. Flegg (N.Z)

I would like to thank the committee for inviting me to Australia to judge your specialty show. It is quite an honour to judge outside my breed and have enjoyed seeing the quality of Amstaff's in Queensland. Here in New Zealand there is a small but strong gene pool but it was especially nice to see the different types in greater numbers. A special thanks to my steward Sue, for running such a tight ship, and of course my thanks to the exhibitors for giving me your entry.

Linda Flegg (N.Z)

### Class 1 ~ Baby Puppy Dog

**1st GRACEN EMBRACE THE AFTERSHOCK (AI)**

Owned by D. Davies/ C & N. Hector

Sire: Mississippi Red Blackball

Dam: Mississippi Red Sue Ellen (Imp Itl)

**Critique:**

Lovely solid brindle and white baby, good bone and substance with a pleasing outline. Straight front with nice feet. Still teething at this point with tight canines. Slight lack of pigment but this will fill in with time. Presents a nice picture in profile when standing has a straight front with adequate depth of forechest, nice rear angulation and correct tail set. First show today and seemed to be enjoying his outing.

**1st RAVINBOUTYA SPLIT DECISION**

Owned by M. Boucher

Sire: Chexla Rhythm And Blues

Dam: Proamstafs Rockin Ravin

**Critique:**

9 month old puppy dog with a lot of maturing to do. Has a very nice head, with good definition and dark eyes. I like the depth of muzzle. Angulation is correct and not overdone, with straight front and tight feet. Overall a very balanced dog but could do with a more bone and substance.

## Class 4 ~ Junior Dog

**1st GANANAMSTAFF ZARED ASHER**

Owned by S. Lampard

Sire: Kurnellblue Boy

Dam: Bludstone Lucia Rayne

### Critique:

A beautiful glossy coat and excellent depth of chest, I like the length of back. Good pigment and the planes in the head in profile and depth of muzzle are pleasing. I like the angulation and tailset but just not terribly happy to be here today. Excellent muscle tone with really nice angulation.

## Class 5 ~ Intermediate Dog

### **1st RUFDIAMONZ MAITAI**

Owned by V. Mackay

Sire: Am Ch. Sierra's Land Rover (Imp USA)

Dam: Aust Ch. Ampower Dakota Rock

#### **Critique:**

Gunbarrel front with lovely bone and substance for size. Moved very well coming and going with no deviation of topline in profile. In comparison the muzzle length in relation to skull was slightly better than 2nd place. I liked the flow of the neck into the topline. Angulation overall was correct and tailset was pleasing, I liked the expression of this dog in comparison to number 2. In stunning show condition.

### **2nd RYTHMNBULIL HAWAIIAN KUMA (AI)**

Owned by L & S. Dowdell

Sire: Big 'R' Rhino

Dam: Aust Ch. Zforce Kiss My Halo

#### **Critique:**

This dog pushed very hard for its class and in show. I do like the head, depth of muzzle and expression, however in a very hard decision I chose what I felt was the most balanced package on the day, however this dog had better rear angulation. This dog was slightly (but not much longer in back) with more of a roach over the loin) Good depth of chest, straight front and also moved well. Another dog in stunning show condition.

#### **Critique:**

Length of muzzle is not balanced in proportion to skull. There is a slackness in the muzzle skin. I do like the bone, substance and rear angulation. Overall is a very balanced picture with good angulation, but didn't go particularly well for the handler today.

**4100169382**

Litter brother to the graduate dog. Beautiful coat and is in great condition. I would like more width of chest and bone. Adequate back length and moderate rear angulation with nice tail set. tends to throw his front feet on the move.

Very shapely dog, with overall good angulation which presents a balanced picture in profile. Perhaps a little too much angle on top skull but otherwise a very nice head which overall gave him first place in this class.

Strong bull type with great angulation a very typey dog. Head has deep stop and shorter muzzle but front on has nice width of skull and good expression. Strong neck, excellent shoulder placement and good length of upper arm for size. In excellent condition.

### **2nd AUST CH. ATTOMOY ROCKAFELLA**

Owned by L. Hodder

Sire: Aust Ch. Attomoy Once A Warrior

#### **Critique:**

Slightly longer on leg than number one. Has a nice head but overall doesn't have the depth of chest or substance of number one. In saying that, this dog has a good neck length and lovely shoulder. A little more upper arm would improve the prosternum and even up the topline. Adequate rear angulation.

Owned by G & V. Ling

Sire: Am Ch. Sierra's Land Rover

Dam: Aust Ch. Ampower Dakota Rock

#### **Critique:**

Beautifully made bitch, very balanced with super ring presence. I loved the bone for size and structurally she is very sound. Head is very balanced and feminine with a broad skull, nice planes and good cheek definition. Dark eyes with a keen expression. Elegant neck flowing into a lovely topline with slight roach over the loin. Her front is straight and I loved with width and depth of her chest. Her rear angulation was very sound and she moved like a dream. Very alert and keen, and enjoying being in the ring. She was handled to perfection today and pushed the boys very hard.

### **2nd AUST CH. TREDANKY SENSATIONALLY HOT (AI)**

#### **Critique:**

A larger bitch also very nicely put together. Straight front with good bone for size. Great depth of chest, lovely shoulder and length of back. Strong rear angulation and super tail set. For me she was lacking femininity and her muzzle was a little long in proportion to her skull. Moves away nicely but toes in a little coming. Still overall a very typey bitch and showed well today.

It was a difficult decision but my number one in this class was due to a more pleasing head. I liked the depth of muzzle and eye placement. Nice straight front, but could do with a little more width between the chest and slightly more bone. Good length of upper arm and correct lay of shoulder. Strong in the rear and moved well.

**1st AUST CH. ATOMOY DESERT ROSE**  
Owned by L. Hodder  
Sire: Aust Ch. Phyclone Tankasaurus  
Dam: Aust Gr Ch. Attomoy Blue Sky Mine

**Critique:**

Good sized bitch with nice bone. She has a straight front and nice feet, but would like a little more width between the forelegs. Strength of head and bone gave her the edge over number two in this class. Falls away behind the withers which spoils her picture in profile. However on the move she gets around the ring very nicely.

#### **Critique:**

Between one and two I had very different types, so it was difficult to make comparisons. This bitch is in super condition for her age with great bone and substance. She has a very strong head, broad, with good depth of muzzle. Alert expression with nice dark eyes. I liked the strength of bone and depth chest, front on she looks like "an amstaff". Neck flows nicely into the topline and is complemented by the length of back finishing in a nice tailset. Strong hindquarters with nice turn of stifle and strong hocks.

A week off 9 years old and in stunning condition. Lovely bone and substance. I like the balance of the head, muzzle length to skull and nice dark eyes. Great depth of chest leading into a lovely straight front. Shoulder is upright but her lovely rear angulation and tailset compensates. Absolutely focused on her handler today and enjoyed being out in the ring.
