Delta Therapy Dogs Program

Are you looking for ways to volunteer in your local community?

Do you have a dog with a fantastic temperament that loves spending time with people?

Delta Therapy Dog teams bring joy to the lives of those who need it most.

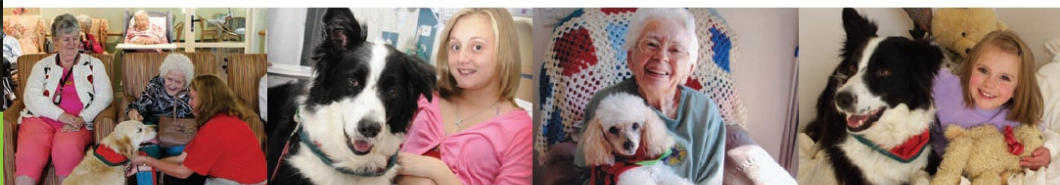

About the Delta Society

The Delta Society is a national not-for-profit organisation with one core belief: that the human-animal bond remarkably improves our quality of life and leaves a lasting paw print on our hearts.

There is a special and indescribable kinship shared between dogs and people of all ages. Attention from a dog can brighten your day, make you feel loved and improve your overall health and wellbeing. A better relationship between people and dogs will lead to a more enriched and fulfilled life for humans and dogs alike. Delta's primary mission is to promote and facilitate positive interaction between people and companion animals, and help people through positive and supportive encounters with dogs.

For more information about the Delta Society's other programs, please visit www.deltasociety.com.au

About Delta Therapy Dogs

Our flagship Delta Therapy Dogs program is the largest of its kind in Australia. Every week, Delta's amazing and devoted Therapy Dog Teams bring joy to the lives of those who need it most: an estimated 20,000 Australians in hospitals and care facilities.

We currently support over 850 volunteers and their special pet dogs, who make regular visits to children's hospitals, adult hospitals, nursing homes and mental health facilities to offer the wonderful benefits of pet therapy, spend time with patients and offer a chat, a floppy ear to listen and a paw to shake.

Volunteering for Delta

Our volunteers and their amazing therapy dogs are our most valued resources, and we are always looking for new volunteer teams to join the Delta Therapy Dogs program.

- ☐ Do you have a dog with a good temperament?
- ☐ Do you have an hour or two to spare every week?
- ☐ Are you interested in giving your time to volunteer in your local community?
- ☐ Do you love talking with people about your dog?

If you answered yes to all these questions, then volunteering with Delta Therapy Dogs could be an incredibly rewarding experience for you.

Scientifically proven benefits of pet therapy

- **Physical** – interaction with a furry friend reduces blood pressure, provides tactile stimulation, motivation to move, walk and stimulates the senses
- **Social** – a visit with a dog provides a positive mutual topic for discussion and promotes focused interaction with others
- **Cognitive** – Canine companionship stimulates memory, problem solving and game playing
- **Emotional** – an adorable four-legged visitor improves self-esteem, acceptance from others, calming effect, lifts mood often provoking laughter
- **Environmental** – a dog in the facility decreases the feeling of a sterile environment and lifts the entire mood

What is required to become a Delta Therapy Team

The Delta Society has 14 branches nationwide, where branch coordinators manage their local volunteer teams and facilities – matching volunteers to facilities close to home, and offering all the support and guidance you need.

Your dog will be required to undergo temperament testing, and must pass the assessment in order to be accredited as a qualified Therapy Dog (see the "Is your dog suitable?" checklist on the back page). A full list of temperament testing procedures and a video example is also available at www.deltasociety.com.au. Retesting of qualified therapy dogs is required every two years.

Dogs must be at least 18 months old and under 10 years old with basic manners. They will be required to be fully vaccinated (C5), be on heartworm preventative medication and treated regularly for internal and external parasites.

Volunteers must complete a one-day training session and an orientation at their assigned facility before they can commence work.

Delta Therapy Dog Teams will need to make a commitment for at least one year and generally visit their assigned facility once a week, for up to 90 minutes each time. You will need your own transportation to travel to your facility each week.

All volunteers who join the program are police checked as part of our protocols. A police check will be completed once your dog has passed temperament testing.

Delta Society provides all training, assessment, uniforms and insurances.

Is your dog suitable?

Take this quick test!

- ☐ Is your dog at least 18 months old and under 10 years old, and fully vaccinated?
- ☐ Does your dog walk nicely beside you without pulling?
- ☐ Can your dog walk on a lead using a soft collar? (no head collars, anti-pull harnesses or flexi leads are allowed)
- ☐ When your dog is off-lead, does he/she come when called?
- ☐ Will your dog "sit" and "drop" when asked?
- ☐ Can your dog sit politely and accept a pat from a friendly stranger?
- ☐ Can your dog walk through a crowd with minimal reaction to distraction?
- ☐ Does your dog show little reaction to clumsy and heavy patting?
- ☐ Will your dog take food gently?
- ☐ Can your dog leave food when asked?
- ☐ Will your dog stay in a sit or drop position while you walk approximately 5 metres away?
- ☐ Can your dog walk past another dog and show no more than a passing interest?
- ☐ Can your dog be held by a stranger and come when called when it is released?
- ☐ Do you both work well as a team?

If you answered yes to all of these questions, then you and your dog are excellent candidates to become a volunteer Therapy Dog team! If you answered no to any of these questions, we recommend that you spend time working on these areas. This may be achieved by undertaking some training before committing to our program. If you would like information on Delta-accredited trainers in your area, visit www.deltasociety.com.au.

If you would like to express your interest in becoming a Delta Therapy Dog team, please visit www.deltasociety.com.au to complete the online form. You will be contacted by your local branch coordinator to arrange temperament testing of your dog on the next available assessment day.

BREED STANDARD

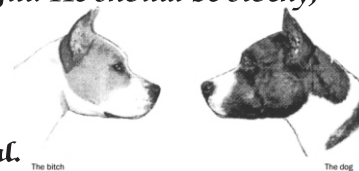

American Kennel Club dated June 1987
Country of Origin ~ United States of America.

F.C.I. Std. No 286
Amended 05/03

General Appearance: The American Staffordshire Terrier should give the impression of great strength for his size, a well put-together dog, muscular, but agile and graceful. He should be stocky, not long-legged or racy in outline.

Characteristics: (Not specified.)

Temperament: Keenly alive to his surroundings. His courage is proverbial.

Head And Skull: Head medium length, deep through, broad skull, very pronounced cheek muscles, distinct stop. Muzzle medium length, rounded on upper side to fall away abruptly below eyes. Jaws well defined. Underjaw to be strong and have biting power. Lips close and even, no looseness. Nose definitely black, Dudley nose undesirable.

Eyes: Dark and round, low down in skull and set far apart. Light or pink eyes undesirable. No pink eyelids.

Ears: Set high. Ears should be short and held rose or half pricked. Full drop to be penalised.

Mouth: Upper teeth to meet tightly outside lower teeth in front. Undershot or overshot mouths undesirable.

Neck: Heavy, slightly arched, tapering from shoulders to back of skull. No looseness of skin. Medium length.

Forequarters: Shoulders strong and muscular with blades wide and sloping. The front legs should be straight, large or round bones, pasterns upright. No resemblance of bend in front. Forelegs set rather wide apart to permit chest development.

Body: Back fairly short. Slightly sloping from withers to rump with gentle short slope at rump to base of tail. Well sprung ribs, deep in rear. All ribs close together. Chest deep and broad. Loins slightly tucked.

Hindquarters: Well muscled, let down at hocks, turning neither in nor out.

Feet: Of moderate size, well-arched and compact.

Tail: Short in comparison to size, low set, tapering to a fine point; not curled or held over back. Not docked. Tail too long or badly carried undesirable.

Gait/Movement: Must be springy but without roll or pace.

Coat: Short, close, stiff to the touch, and glossy.

Colour: Any colour, solid, parti, or patched is permissible, but all white, more than 80% white, black and tan, and liver not to be encouraged.

Sizes: Height and weight should be in proportion.

Height: Dogs approx 46-48 cms (18-19 ins) at shoulders, Bitches approx 43-46 cms (17-18 ins) at shoulders is considered preferable.

Faults: Any departure from the foregoing points should be considered a fault and the seriousness with which the fault should be regarded should be in exact proportion to its degree and its effect upon the health and welfare of the dog.

Notes: Male animals should have two apparently normal testicles fully descended into the scrotum.
